CONTENTS

Protoplasmic streaming in the slime mold (*Physarum polycephalum*)
I. Introduction to the slime mold.
M.L. Prachaksilp Tongyai 1

Protoplasmic streaming in the slime mold (*Physarum polycephalum*)
II. Experimentation on the cause of protoplasmic flow in the slime mold.
M.L. Prachaksilp Tongyai 9

Response of bean sprouts (*Phaseolus aureus* L. and *Vigna sinensis* Endl.) to calcium.
Katie Helms
L.F. Myers 15

Quantitative study of some compositions in soybean varieties.
Nithiya Pratoomrattana
Netrachaleo Sanpitak 23

Thua-nao: A fermented soybean food of Northern Thailand
I. Traditional processing method.
Malee Sundhagul
Puangpen Smanmathuroj
Wanchern Bhodacharoen 43

Weed control under young replanted rubber using paraquat.
R.S. Harper 57

Rice calendar of Thailand.
Visit Rasmidatta 63

Effects of molybdenum on seed yield and some chemical properties of soybean.
Hiran Hiranpradit
Vichitr Benjasil 77

The treatment of rice straw with sodium hydroxide and its economic limitations in Northern Thailand.
Josper Holm 89

Suitabilities of some Thai hardwoods and coconut-husk fibre for manufacturing hardboards by wet and dry processes.
Wichitr Krisnabamrung
Norio Takamura 101

Mycoplasma-like bodies associated with sesame phyllody in Thailand.
Duangchai Choopanya 127

A comparative study on the effectiveness of local and introduced *Rhizobium* strains on "S.J.2" soybean.
Srivan Chomchalow
Barry Norman 135

Protoplasmic streaming in the slime mold (*Physarum polycephalum*) III. Experimentation on protoplasmic streaming in the slime mold.
M.L. Prachaksilp Tongyai 143

Biological studies on the armyworm, *Leucania separata* Walker. I. The determination of the larval instar by means of head capsule measurement.
Neungpanich Sinchaisri 157

Morphology, genesis, occurrence and agricultural potential of acid sulphate soils in Central Thailand.
W. van der Kevie 165

Reuse of human wastes in agriculture.
M.G. McGarry
S.M.A. Durrani
Wiang Chuapohuck 183

Effect of gamma radiation on various stages of the rice moth, *Corcyra cephalonica*.
Srisan Loaharanu
Manon Sutantawong
Ampai Ungsunantwiwat 195

Effect of temperature and chemical treatments on the chemical composition of alkaline water.
Prayong Nammuang 203

The yields of some tropical fodder plants from Northern Thailand.
Jasper Holm 227

Sensory acceptability evaluation of irradiated rice, *Oryza sativa indica*.
Srisan Loaharanu
Manon Sutantawong
Ampai Ungsunantwiwat 237

Effect of growing conditions on fibre quality of five Thai kenaf varieties.
Prapandh Boonklinkajorn 243

The dairy industry in Thailand : Profitability of production and marketing of milk.
D.K. Crump
Sanoh Umrod 251

Polyethylene bags and ethylene absorbent for delaying banana ripening.
Sing Ching Tongdee 265

The effect of D-1410 on root knot nematode *Meloidogyne incognita*.
Somkuan Keereewan 273

Seasonal variation of the nutrient contents of rubber leaves and the definition of a sampling time and technique.
L. Nualsri
R.J.C. Marijnissen
G.W. Arnott 281

Plot size and shape for rice field experiments in Thailand.
Sanga Duangratana
Kwanchai A. Gomez 301
